The 1ˢᵗ International Symposium on Intelligent Technology for Future Transportation

ITFT 2024

Oct. 19-21, 2024 | Helsinki, Finland

In today's rapidly advancing landscape of AI, big data, wireless communication technology and IoT, the development and construction of intelligent transportation system has entered the next significant evolutionary stage.

ITFT 2024 aims to showcase innovative approaches and cutting-edge solutions that promise significant improvements in the intelligent transportation systems. The emphasis is on fostering stronger support for green and low-carbon development, as well as providing seamless and efficient travel services in the face of evolving technological landscape in the transportation sector.

Organizing Committees

General Chairs
Prof. Zaili Yang, Liverpool John Moores University, UK
Prof. Yu Zhang, University of South Florida, USA
Program Committee Chairs
Prof. Emrah Demir, Cardiff University, UK
Dr. Abolhassan Razminia, Åbo Akademi University, Finland
Program Committee Co-Chair
Prof. Fahimeh Farahnakian, University of Turku, Finland
Technical Program Committee Chairs
Prof. Wai Lok Woo, Northumbria University, UK
Assoc. Prof. Nguyen Dinh Hoa, Kyushu University, Japan
Publicity Chair
Dr. Zhenyu Zhao, Nanyang Technological University, Singapore
Local Chair
Dr. Mingyang Zhang, Aalto University, Finland

Important Dates

Submission Due:
June 30, 2024
Notification Due:
July 30, 2024
Registration & Payment Due:
August 15, 2024
Conference Date:
October 19-21, 2024

Publication

All accepted and presented papers will be published in the ITFT 2024 conference proceedings and submitted for major indexing services like EI Compendex, SCOPUS, etc.

Submission

OpenConf System: https://itft.org/openconf/openconf.php
Email: cfp@itft.org

Call for Papers

T1: Intelligent Vehicle Technology and Applications
T2: Intelligent Transportation Management
T3: Advanced Technology for Public Transportation
T4: Design and implementation of Intelligent Transportation Infrastructure
T5: Other Intelligent Technology for Transportation
Industrial Track
The Industrial Track welcomes contributions showcasing original results obtained in an industrial environment, having clear industry relevance, and highlighting new research challenges motivated by practical tasks and practical settings.

Keynote Speakers

Prof. Michel Bierlaire
Ecole Polytechnique Fédérale de Lausanne (EPFL),
Switzerland

Prof. Andrea D'Ariano
Università degli Studi Roma Tre,
Italy

Prof. Otto Anker Nielsen
Technical University of Denmark,
Denmark

Assoc. Prof. Zhiwei Wang
Nanyang Technological University,
Singapore

Conference Support

LIVERPOOL JOHN MOORES UNIVERSITY

UNIVERSITY of SOUTH FLORIDA

CARDIFF UNIVERSITY PRIFYSGOL CAERDYᵈᵈ

UNIVERSITY OF TURKU

Northumbria University NEWCASTLE

KYUSHU UNIVERSITY

NANYANG TECHNOLOGICAL UNIVERSITY SINGAPORE
